

MetEd Sponsorship Opportunities

Support meteorological training and Earth system science education while gaining access to a community of over 880,000 users worldwide.

Through sponsorship of the [MetEd](#) training portal, organizations can demonstrate their commitment to advancing Earth system science education while reaching a highly engaged audience of students, professionals, and enthusiasts.

MetEd offers more than 1,100 FREE online courses and lessons covering topics across the weather and geosciences spectrum in multiple languages. Over the past 20 years, the COMET team has built MetEd with primary support from National Oceanic and Atmospheric Administration's (NOAA) National Weather Service. MetEd has also received additional support from Meteorological Service of Canada, NOAA's National Environmental Satellite, Data and Information Service (NESDIS), EUMETSAT, World Meteorological Organization (WMO), U.S. Geological Service (USGS), and the U.S. Navy, among other U.S and international organizations.
